

Sponsor a Student - Frequently Asked Questions

What does it mean to be a sponsor?

Being a sponsor means that you make a commitment to financially support a student through annual or monthly donations. You can do this individually or as a group. You will also be encouraged to support your sponsored student through regular prayer.

How will I know how my sponsored student is doing?

You will receive a personal letter/card from your sponsored child twice a year (at Christmas and Easter) with an update report on their progress in school. Periodic newsletters describing the school's activities and highlights from the school year will also be provided throughout the year.

Does my money go directly to the student that I am supporting?

No. We are very sensitive to the issue of not allowing individual students to feel that they are receiving less support or attention than others. Therefore, sponsorship monies go into a general fund which supports all of the students equally.

How can I make my payments?

You will receive pre-addressed envelopes. Please make checks payable to Liberty Corner Presbyterian Church and mark "Honduras: Sponsor a Student" in the memo line.

If you lost your mailing envelope, you may send your payment to:

Hearts For Honduras School
c/o Liberty Corner Presbyterian Church
45 Church Street
P.O. Box 55
Liberty Corner, NJ 07938

Am I able to select a specific student to sponsor?

When you sign up as a sponsor, a child will be selected for you. The student that you are assigned is your personal link to the Hearts For Honduras School, and you become that child's link to the greater world. The child will feel gratified that you have chosen to take a particular interest in his/her well-being.

Can I send letters, packages or extra monetary gifts to Hearts For Honduras students?

We are very sensitive to the issue of not allowing individual students to feel that they are receiving less support or attention than others. Therefore, while you will receive letters from and information about your sponsored student, they will not receive communications directly from you. You can, however, write letters to the "students class". If your sponsored child is in the first grade (as an example), you could write a letter to the first grade class. The first grade class will respond to your letters and thus you can build a relationship with an entire class!

Can I sponsor more than one child?

Yes, you can sponsor as many children as you wish. Your contribution to providing high-quality education, nutrition, and spiritual nurture to needy children in La Entrada will help to change their lives.
